ESMT Berlin is a leading global business school with its campus in the heart of Berlin. Founded by 25 global companies, ESMT offers master, MBA, and PhD programs, as well as executive education on its campus in Berlin, in locations around the world, online, and in online blended format. Focusing on leadership, innovation, and analytics, its diverse faculty publishes outstanding research in top academic journals. Additionally, the international business school provides an interdisciplinary platform for discourse between politics, business, and academia. ESMT is a non-profit private institution of higher education with the right to grant PhDs and is accredited by AACSB, AMBA, EQUIS, and ZEvA. It is committed to diversity, equity, and inclusion across all its activities and communities.

The School’s Mission
From the heart of Europe, we create and impart new knowledge to advance business and society. We develop entrepreneurial leaders who think globally and act responsibly.

The ESMT Campus

The ESMT Campus was opened in 2006 in the former GDR Council of State building. The building is located on the historic Schlossplatz, directly opposite the former Berlin City Palace.

Opened on October 3, 1964, the State Building was the official residence of Erich Honecker, among others. The façade is significantly influenced by the reproduction of the Portal IV of the former Berlin City Palace, in front of whose balcony Karl Liebknecht is said to have proclaimed the “free socialist republic” in 1918. From 1999 to 2001, the building also served as the official residence of the then German Chancellor Gerhard Schröder. ESMT has had its headquarters in the building since 2006. The Council of State building was renovated by the ESMT Foundation in accordance with the preservation order and its conversion into a modern educational institution was completed in late 2005. The former banqueting, ceremonial, and diplomatic halls now houses lecture halls and event rooms. With the interior design largely remaining true to the original. Between 2015 and 2017, ESMT has renovated and expanded other parts of the building.
**Degree Programs: MBA**

**Full-time MBA**
(15 months)

The ESMT Master of Business Administration is a 15-month, full-time international management program that starts in January each year. Focus areas include innovation and entrepreneurship, managerial analytics, and strategic leadership.

**Executive MBA**
(18 months)

The ESMT EMBA is an 18-month, modular program with a top reputation for developing global executives. Participants, comprising exclusively mid- to senior-level managers, meet in Berlin for intensive six-day modules every two months, beginning in October each year.

**Part-time MBA**
(24 months)

The Part-time Blended MBA allows students to continue working full-time and at the same time acquire new knowledge and skills. The program, starting in September, is aimed at people with at least three years of work experience and includes 80 percent online and 20 percent personal study.

**Global Online MBA**
(24 months)

ESMT’s first completely online program is modular and allows students to study at their own pace. The innovative course design allows students to study at times that fit their schedules, and students may complete the program in 24 months or take up to five years. Professional experience of at least three years is required.

ESMT’s Master in Management is an innovative program designed with input from top German companies. The two-year degree gathers a selected group of talented individuals who can show strong analytical ability and strategic thinking in their application to the MIM. It starts in September.

ESMT’s Master in Global Management is a program with a focus on managing global corporations in a changing world. The 24-month degree is aimed to make students understand how businesses shape the global economy and how managers can contribute to making a positive impact.

ESMT’s Master in Innovation and Entrepreneurship will guide students through identifying and evaluating new opportunities, implementing business solutions, analyzing risk, and more. In two years, the program will equip participants with specialized innovation and entrepreneurial skills. The program is offered in collaboration with Vali Berlin, ESMT’s Entrepreneurship Hub.

The ESMT Master in Analytics and Artificial Intelligence is a program built to make new professionals well versed in big data analysis. The two-year program will help students learn to leverage their quantitative skills and merge them with the managerial vision required to create value through data-driven solutions.

*Starts in September 2023*
